

REMARKS

The Office Action of March 6, 2008 has been carefully considered.

Objection has been raised to the specification based on reference to the claims, the specification has now been amended to delete all such references, add proper subject matter headings and add a reference to the PCT application on which this application is based.

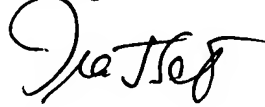

Objection has been raised to the Abstract, and a new Abstract has been added.

Objection has been raised to claims 1, 4 and 5 based on "it" or "its" in these claims. Claims 1-5 have now been canceled and replaced by a new set of claims 6-10, written in proper form for US practice. The scope of these claims is thought to be the same as the original claims.

The allowability of claims 1-5 over the art of record has been noted.

In view of the foregoing amendments and remarks, Applicant submits that the present application is now in condition for allowance. An early allowance of the application with amended claims is earnestly solicited.

Respectfully submitted,

Ira J. Schultz
